40V

LITHIUM-ION
BATTERY

Model: G40B4

Model: G40B2

Model: G40C

High-performance G-MAX 40V Lithium-Ion batteries deliver long run time with fade-free full power from start to finish

- 2 Ah batteries 100% recharge in 60 minutes
4 Ah batteries 100% recharge in 120 minutes
- On-board 'fuel indicator' shows remaining power. Batteries can be recharged at any stage with no 'negative memory effect' - they will work at peak power even after hundreds of charge cycles.
- Greenworks batteries lose charge exceptionally slowly so can be ready to work even after months of storage

One Battery fits all 40V Tools

GRASS BAG

**Smart
Cut™**
TECHNOLOGY

Model: G40LM49DB

Features

- The Dual Blade has a 49 cm cutting width and is described as a 3-in-1 because of its ability to Bag, Mulch or Discharge the grass clippings
- Dual Blade technology gives better cut quality, superior mulching and more efficient filling of the 60 litre bagging capacity
- SMART CUT technology automatically adjusts motor speed and power to match mowing conditions. This leads to a more uniform cut and also extended run time because of the more efficient use of power.
- Automatic switchover to the second battery once the first is depleted
- G-MAX 40V Lithium-Ion battery system delivers up to 90 minutes of run time
- 5-position single lever gives cutting height adjustments from 3 cm to 9 cm
- Large 10" Rear and 7" Front wheels make it easy to manoeuvre through almost any terrain

Included

- G-MAX 40V DualBlade Lawnmower : 60 litre Rear Collection Bag : Mulching Plug : Isolator Key : Owner's Manual : G-MAX 40V 4Ah battery : G-MAX 40V 2Ah battery : 230V Charger

DIGIPRO
BRUSHLESS

Model: GD40LM45

Features

- Greenworks 'DigiPRO' brushless motor technology is hugely more efficient and reliable. It delivers greater torque, longer run times and higher speeds with no noticeable vibration or noise.
- The 7-position single lever gives cutting height adjustments from 2.8 cm to 7.6 cm
- 45cm cutting width and steel deck yield fast results.
- Large 10" Rear and 7" Front wheels make working easy from fine lawn to almost any terrain
- This flexible machine can be set up to discharge clippings to the Side, Rear (open), Rear (bag) or to Mulch.

35 cm G-MAX 40V Lawn Mower

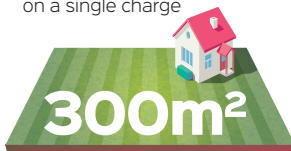

Model: G40LM35

Features

- Very competitively priced lawnmower for the smaller garden - still offering all the advantages of the Greenworks 40V lithium-ion cordless system ...
- ... the high performance G-MAX 40V Lithium-ion battery delivers fade-free power with all the POWER of a petrol machine but WITHOUT the toxic emissions, noise, vibrations and running costs
- The same 2Ah battery fits ALL Greenworks 40V Tools
- 35 cm cutting width
- 5 pre-set cutting heights 20mm to 80mm
- Up to 300m² of mowing on a single charge

Included

- The Mower : Rear Collection Bag : Built-in Mulcher : Owner's Manual : G-MAX 40V 2Ah battery : 230V Charger

40 cm 'DigiPRO' G-MAX 40V Chainsaw

DIGIPRO

BRUSHLESS

Model: GD40CS40

Features

- The best 40V Chainsaw available anywhere in the world, featuring ...
- ... the G-MAX 40V Lithium-ion battery system which delivers fade-free power with all the POWER of a petrol machine but WITHOUT the toxic emissions, noise, vibrations and running costs ...
- Electronic chain brake
- The bar and chain can be changed without the use of tools
- Chain tension adjustment also requires no tools
- Automatic lubrication, with oil level indicator
- ... up to 30% MORE TORQUE from the 'DigiPRO' brushless motor ...
- ... up to 70% LESS VIBRATION for user comfort

Tool-only includes

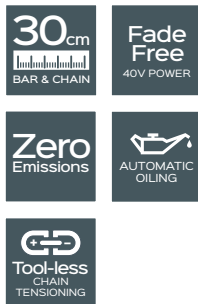

- The Chainsaw : 40 cm (16") Oregon Bar and Chain : Carrying Bag : Owner's Manual

G-MAX 40V Chainsaw

Model: G40CS30

Features

- 30 cm Oregon bar and chain
- Lightweight and smooth running but with a ferocious performance - this is the perfect branch and limb chainsaw for arborists working aloft
- Electronic chain brake
- The bar and chain can be changed without the use of tools
- Chain tension adjustment also requires no tools, so you can keep working with the minimum of interruption

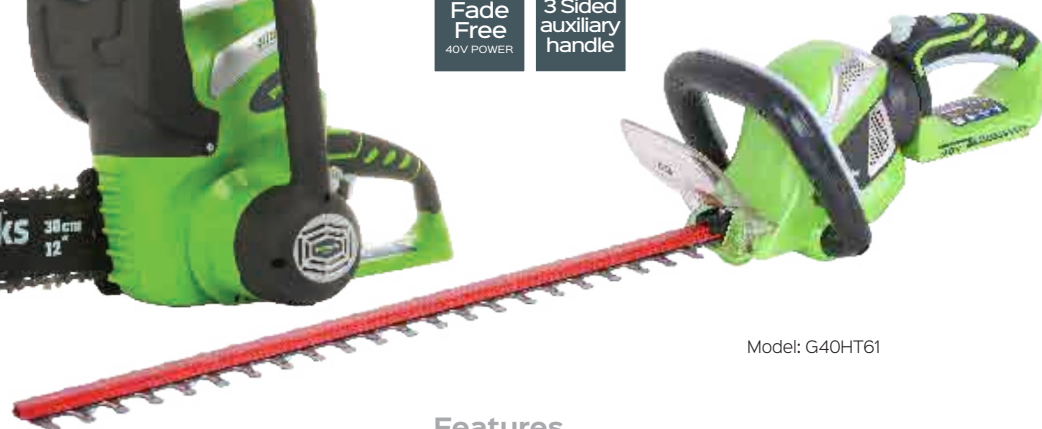

- Automatic lubrication, with translucent oil tank. At-a-glance checking of correct lubrication levels ensures durability and working life of the chain.

Tool-only includes

- The Chainsaw : 30 cm (12") Bar and Chain : Scabbard : Owner's Manual

61 cm

G-MAX 40V Hedge Trimmer

Model: G40HT61

Features

- 61 cm length steel blade - our longest cordless Hedge Trimmer blade, to reach across the widest expanses of topiary while retaining complete control for accurate cutting
- 20 cm cutting capacity - our largest Hedge Trimmer cutting capacity is more than ample to deal with sizeable stem thickness growth in bushes and shrubs
- COOL FEATURE : rear handle rotates through 180° so you can find the optimum comfortable working position no matter what angle you are cutting

- Wrap-around auxiliary handle and soft over-moulded grips make handling comfortable and secure
- See-through hand guard offers added protection against accidental injury as well as maintaining clear sight of the working area
- Double-trigger operation ensures hands are kept away from the blade while the Hedge Trimmer is cutting

Tool-only includes

- The Hedge trimmer : Blade sheath : Owner's Manual

Brushless 35cm DigiPro String Trimmer

Model: GD40BC

DIGIPRO
BRUSHLESS

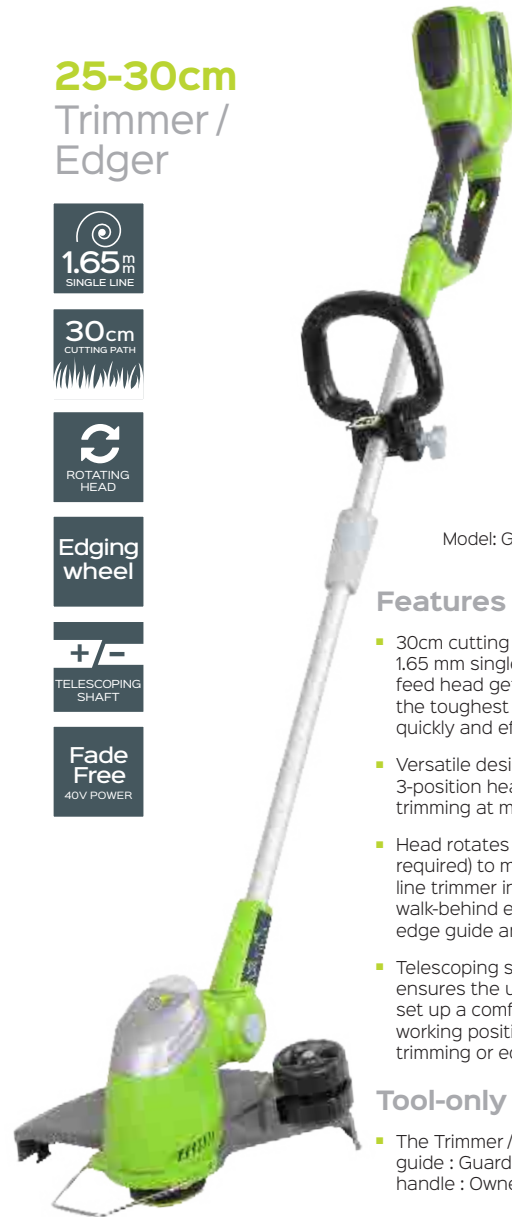

Features

- The DigiPro Brushless motor makes a huge difference to the performance of this string trimmer - MORE power, LONGER run time, HIGHER speed, GREATER efficiency and LESS noise and vibration
- The straight shaft, along with the top-mounted motor is the perfect, professional's choice of layout for balance and control
- The split shaft is multi-attachment capable
- All the advantages of the Greenworks 40V lithium-ion cordless system combine to give you high performance fade-free power with all the POWER of a petrol machine but WITHOUT the toxic emissions, noise, vibrations and running costs

Tool-only includes

- The String Trimmer : Power head : Guard : Auxiliary handle : Owner's Manual

25-30cm Trimmer / Edger

Model: G40LT30

Features

- 30cm cutting path and 1.65 mm single line auto feed head get through the toughest weeds quickly and efficiently
- Versatile design with 3-position head for easy trimming at multiple angles
- Head rotates (no tool required) to make the line trimmer into a walk-behind edger, with edge guide and wheel
- Telescoping shaft ensures the user can set up a comfortable working position whether trimming or edging

G-MAX DigiPro Blower

340 CF/M	300 KM/H	DigiPro BRUSHLESS MOTOR
 Turbo button	Fade Free 40V POWER	 Variable speed

Model: GD40BV

Features

- The DigiPro Brushless motor makes a huge difference to the performance of this Blower - MORE power, LONGER run time, HIGHER speed, GREATER efficiency and LESS noise and vibration
- Air speed is an impressive 300 kilometres per hour (185 mph) controlled with a variable speed dial along with a turbo boost button for enhanced speed
- The fast air speed is more than matched by an astonishing CFM figure - a huge volume of 340 cubic feet of air moved every minute. This is a seriously capable Blower Vacuum for heavy duty projects on hard surfaces or lawned areas.
- Quick and easy tool-less transition from blowing to vacuum mode
- Vacuum mulches at 10 : 1 so the 45 litre collector bag doesn't need changing very often and the mulch is very fine, ready for fast composting

- PLUS all the benefits of the G-MAX 40V system; zero emissions, zero maintenance, virtually no running or maintenance costs ...
- ... and just one battery fits all Greenworks 40V tools

DIGIPRO
BRUSHLESS

Tool-only includes

- The Blower / Vac : Blower tube : Concentrator tip : Vacuum tube : Collection bag : Owner's Manual

G-MAX Blower

135 CF/M	240 KM/H	30 min RUN TIME
Zero Emissions	Fade Free 40V POWER	 Variable speed

Model: G40BL

Features

- Variable speed dial with High / Low switch enables you to achieve wind speeds to match the job you're working on - all the way up to 240 kilometres per hour (150 mph)
- Fast airflow won't get the job done on it's own, though, so as well as the fast speed the G40BL also moves an impressive volume of air - 135 cubic feet per minute
- Add to the above the greater control given by the adjustable airflow tip and you have the perfect tool for the smaller garden of under an acre when it comes to clearing leaves and debris off hard surfaces such as your patio.
- There's virtually no vibration when compared to petrol blowers ...

- ... and of course far less noise, along with all the other benefits of the high performance G-MAX 40V lithium-ion powered range of tools - including zero emissions and virtually no running costs
- The Blower is light in weight (only 1.54kg) so you can work for extended periods with less effort and great handling

Tool-only includes

- The Blower : Sweeper tube : Concentrator tip : Owner's Manual

G-MAX Cultivator

Model:
G40TL

Features

- High performance motor digs easily through tough soil
- Adjustable tilling WIDTHS from 21 cm to 26 cm
- Adjustable tilling DEPTH up to 12 cm
- Large 15 cm wheels provide easy handling control in the rough ground being worked on, as well as easy transport around the work area
- Durable, gear-driven transmission
- All the advantages of the Greenworks 40V lithium-ion cordless system ...
- ... the high performance G-MAX 40V Lithium-Ion battery delivers fade-free power with all the POWER of a petrol machine but WITHOUT the toxic emissions, noise, vibrations and running costs
- The same 40V battery fits ALL Greenworks 40V Tools

Tool-only includes

- The Cultivator : 2 hitch pins : 2 'U' shaped hitch pins : 4 tines : 4 felts : wheel assembly : Owner's Manual

G-MAX DigiPRO 51cm Snow Thrower

Model:
G40SN51

Features

- Exceptional performance from this 'DigiPRO' Brushless motor powered machine with ...
- ... an impressive 51 cm (20 inch) clearing path ...
- ... and discharging snow to a maximum distance of over 6 metres (20 feet)
- Top chute rotates through 190° degrees for directional control of the snow discharge
- Dual LED headlamps enable safe use during dark winter mornings and evenings
- And all the advantages of the Greenworks 40V lithium-ion cordless system combined to give you high performance fade-free power with all the POWER of a petrol machine but WITHOUT the toxic emissions, noise, vibrations and running costs

Tool-only includes

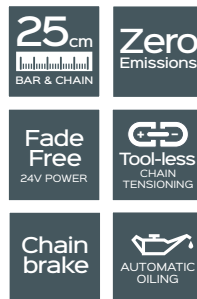

- The Snow Blower : Owner's Manual

Blower tube : Concentrator tip, Owner's Manual

230V

CORDED
ELECTRIC

Greenworks corded tools offer a sensible alternative to petrol power, too; especially when working in enclosed spaces such as sheds or garages. Like our cordless tools have zero emissions, cost little to run and maintain - and start first time every time, unlike petrol power.

- Corded power tools are usually as powerful, but considerably lighter than, their petrol-powered counterparts ...
- ... enabling a user to work for longer periods and without the loss of concentration that fatigue can sometimes bring.
